1. EXECUTIVE SUMMARY

The Trust has a duty to ensure that all records are kept only for as long as is necessary to fulfil the purpose(s) for which they were intended, in line with any statutory requirements.

The Data Protection Officer (DPO) will maintain this policy and lead on its Trust wide implementation by supporting Informational Owners (IO) and School Data Leads (SDL) within their respective academies or business units.

Any individual operating as part of the workforce (e.g. employees, volunteers, contractors) are responsible for maintaining the accuracy, security and disposal of records.

This policy includes information pertaining to data retention periods agreed with information on statutory requirements, contractual requirements or local justification. Any retention periods for personal or sensitive data are communicated with individuals via a privacy notice.

The use of data protection by design principles ensures that all individual rights to data minimisation are employed, and where data is retained over time, personally identifiable data is removed.

The safe storing and protection of information is a fundamental requirement of GDPR. Information Owners must ensure that appropriate technical, physical and procedural measures are taken to keep records safe and secure.

Personnel should receive appropriate training and development on the requirements and responsibilities specific to their role(s). This would include annually refreshing knowledge, skills and techniques required to safeguard personal and sensitive data sets in both digital and hardcopy formats. This could include changing login credentials, secure file transfers and the use of lockable filing cabinets for archiving. Any unauthorised disclosure may result in disciplinary action.

SDLs are responsible for ensuring continuity and recovery measures are in place. Any damage to or theft of data will be managed in accordance with the Trust's Security Breach Management Plan.

Individuals have the right to access their personal information we hold or process. The Trust will adhere to the provisions outlined in the Trust's Data Protection Policy when responding to requests seeking access to personal information.

A ROPA statement will contain details of data that is required to be retained for longer than six years. Appropriate storage solutions, including details of file servers, any relevant access controls and software specific licences must be easily accessible.

Annual information audits will be used to evaluate the information the Trust is holding to ensure it is correctly managed in accordance with the GDPR.

The disposal of information can take a variety of forms depending on the type of data and its purpose. Standard disposal pertains to recyclable information either electronic or paper recycling. Secure disposal would require shredding and electronic scrubbing where possible. The SDL would keep a record of files that are destroyed. Data that is indicated as reviewed before will be reviewed by the SDL. Where information must be kept permanently, this information is exempt from normal review procedures.

2. STATEMENT OF INTENT

Pennine Academies Yorkshire Trust is committed to maintaining the confidentiality of its information and ensuring that all records within The Trust and its Academies are only accessible by the appropriate individuals. In line with the requirements of the GDPR, the Trust also has a responsibility to ensure that all records are only kept for as long as is necessary to fulfil the purpose(s) for which they were intended.

This policy outlines how records are stored, accessed, monitored, retained and disposed of, in order to meet statutory requirements and comply with the requirements set out in the GDPR.

NB: There is not a sector-wide data retention policy that prescribes how long data should be retained for. The retention periods outlined in this policy are suggested good practice guidelines only and academies should ensure that they consider their specific requirements when implementing these timeframes. The tables for retention periods are based on information contained within asset registers and are further informed by the Information Records Management Society (IRMS) and the DfE GDPR Toolkit guidance. Any retention periods should be in line with local arrangements and justifications for processing the data.

3. LEGAL FRAMEWORK

This policy has due regard to legislation including, but not limited to, the following:

- [General Data Protection Regulation 2018](#)
- [The Data Protection Act 2018](#)
- [Freedom of Information Act 2000](#)
- [Limitation Act 1980](#)

This policy also has due regard to the following guidance:

- Information Records Management Society (2016) 'Information Management Toolkit for Schools'
- DfE (2018) 'Data protection: a toolkit for schools'

This policy will be implemented in accordance with the related policies and procedures such as:

- Data Protection Policy
- Freedom of Information Policy

4. RESPONSIBILITIES

The Trust as a whole has a responsibility for maintaining its records and record-keeping systems in line with statutory requirements.

The Data Protection Officer (DPO) holds overall responsibility for this policy and for ensuring correct implementation.

The School Data Lead (SDL) is responsible for the management of records within the academy.

The SDL is responsible for promoting compliance with this policy and reviewing the policy on an annual basis, in conjunction with Information Owners.

The SDL is responsible for ensuring that all records are stored securely, in accordance with the retention periods outlined in this policy, and are disposed of correctly.

All staff members are responsible for ensuring that any records for which they are responsible for are accurate, maintained securely and disposed of correctly, in line with the provisions of this policy

5. MANAGEMENT OF PUPIL RECORDS

Pupil records are specific documents that are used throughout a pupil's time in the education system – they are typically stored on an electronic management information system and passed to each academy that a pupil attends and includes all personal information relating to them, e.g. UPN, name, date of birth, home address, as well as their progress and achievement. The specific data captured must reflect the requirements of statutory returns such as the DFE Census or contractual requirements.

Where hard copies of accident/incident forms, disclosures or reports relating to child protection are received these must be securely stored, ideally in a digital format on the pupil management information system or else placed in a sealed envelope, in a securely locked filing cabinet, a note indicating this should be marked on the pupil's file.

Where hard copies of complaints made by parents or pupils are stored in a file in a secure location, a note indicating this is marked on the pupil's file.

No pupil records are altered or amended before transferring them to the next setting that the pupil will attend.

The only exception to the above is if any records placed on the pupil's file have a shorter retention period and may need to be removed. In such cases, the SDL responsible for disposing records, will remove these records.

Electronic records relating to a pupil's record will also be transferred to the pupil's next school/academy. Section 5 of this policy outlines how electronic records will be transferred.

[Primary academies only] The academy will not keep any copies of information stored within a pupil's record, unless there is ongoing legal action at the time during which the pupil leaves the academy. The responsibility for these records will then transfer to the next school/academy that the pupil attends.

The academy will, wherever possible, avoid sending a pupil record by post. Where a pupil record must be sent by post, it will be sent by registered post, with an accompanying list of the files included. The receiving party is required to sign a copy of the list to indicate that they have received the files and return this to the academy.

6. IDENTIFYING INFORMATION

Under the GDPR, all individuals have the right to data minimisation and data protection by design and default – as the data controller, the trust ensures appropriate measures are in place in order for individuals to exercise this right.

Wherever possible, the school uses pseudonymisation, also known as the ‘blurring technique’, to reduce risk of identification.

Where data is required to be retained over time, e.g. attendance data, the academy removes any personal data not required and keeps only the data needed – in this example, the statistics of attendance rather than personal information.

7. STORING AND PROTECTION INFORMATION

The SDL will undertake a risk analysis to identify which records are vital to academy management and these records will be stored in the most secure manner.

The SDL will conduct a back-up of information on a termly basis to ensure that all data can still be accessed in the event of a security breach, e.g. a virus, and prevent any loss or theft of data.

Where possible, backed-up information will be stored off the academy premises.

Confidential paper records are kept in a locked filing cabinet, drawer or safe, with restricted access.

Confidential paper records are not left unattended or in clear view when held in a location with general access.

Digital data is coded, encrypted or password-protected, both on a local hard drive and on a network drive that is regularly backed-up off-site.

The use of removable storage is not permitted.

All electronic devices are password-protected to protect the information on the device in case of theft.

Where possible, the academy enables electronic devices to allow the remote blocking or deletion of data in case of theft.

Staff and Trustees and Local Committee Members do not use their personal laptops or computers for school purposes.

All members of staff are provided with their own secure login and password, and every computer regularly prompts users to change their password.

Emails containing sensitive or confidential information are password-protected or confidential mode to ensure that only the recipient is able to access the information. The password will be shared with the recipient in a separate email.

Circular emails to parents are sent blind carbon copy (bcc), so email addresses are not disclosed to other recipients. Where possible messages should be sent via Trust MI systems, opposed to email accounts.

When sending confidential information by fax, members of staff always check that the recipient is correct before sending.

Where personal information that could be considered private or confidential is taken off the premises, to fulfil the purpose of the data in line with the GDPR, either in an electronic or paper format, staff take extra care to follow the same procedures for security, e.g. keeping devices under lock and key. The person taking the information from the academy premises accepts full responsibility for the security of the data.

Before sharing data, staff always ensure that:

- They have consent from data subjects to share it.
- Adequate security is in place to protect it.
- The data recipient has been outlined in a privacy notice.

All staff members should implement a 'clear desk policy' to avoid unauthorised access to physical records containing sensitive or personal information. All confidential information will be stored in a securely locked filing cabinet, drawer or safe with restricted access.

Under no circumstances are visitors allowed access to confidential or personal information. Visitors to areas of the school containing sensitive information are supervised at all times.

The physical security of the school's buildings and storage systems, and access to them, is reviewed termly by the site manager in conjunction with the SDL. If an increased risk in vandalism, burglary or theft is identified, this will be reported to the Headteacher and extra measures to secure data storage will be put in place.

The academy takes its duties under the GDPR seriously and any unauthorised disclosure may result in disciplinary action.

The SDL is responsible for continuity and recovery measures are in place to ensure the security of protected data.

8. ACCESSING INFORMATION

Pennine Academies Yorkshire Trust is transparent with data subjects, the information we hold and how it can be accessed.

All members of staff, parents of registered pupils and other users of the school, e.g. visitors and third-party clubs, are entitled to:

- Know what information the school holds and processes about them or their child and why.
- Understand how to gain access to it.

- Understand how to provide and withdraw consent to information being held.
- Understand what the academy is doing to comply with its obligations under the GDPR.

All members of staff, parents of registered pupils and other users of the academy and its facilities have the right, under the GDPR, to access certain personal data being held about them or their child.

Personal information can be shared with pupils once they are considered to be at an appropriate age and responsible for their own affairs; although, this information can still be shared with parents.

Pupils who are considered to be at an appropriate age to make decisions for themselves are entitled to have their personal information handled in accordance with their rights.

The school will adhere to the provisions outlined in the Trusts Data Protection Policy when responding to requests seeking access to personal information.

9. RECORD OF PROCESSING ACTIVITIES (ROPA) STATEMENT

Digital data that is retained for longer than six years will be named as part of a ROPA register

The SDL will identify any digital data that will need to be named as part of a ROPA register

The data will be archived to dedicated files on the appropriate server, which are password protected – this will be backed-up in accordance with section 5 of this policy.

Memory sticks will never be used to store digital data.

The IT service provider will review new and existing storage methods annually and, where appropriate, add them to the ROPA statement.

The following information will be included within the ROPA statement:

- A statement of purpose and requirements for keeping the records.
- The names of the individuals responsible for long term data preservation.
- A description of the information assets to be covered by the digital preservation statement.
- A description of when the record needs to be captured into the approved file formats.
- A description of the appropriate supported file formats for long-term preservation.
- A description of the retention of all software specification information and licence information.
- A description of how access to the information asset register is to be managed in accordance with the GDPR.

10. INFORMATION AUDIT

The Trust conducts information audits on an annual basis against all information held by the academies and business units to evaluate the information the Trust is holding, receiving and using and to ensure that this is correctly managed in accordance with the GDPR. This includes the following information:

- Paper documents and records.
- Electronic documents and records.
- Databases.
- Microfilm or microfiche.
- Sound recordings.
- Video and photographic records.
- Hybrid files, containing both paper and electronic information.

The information audit may be completed in a number of ways, including, but not limited to:

- Interviews with staff members with key responsibilities – to identify information and information flows etc.
- Questionnaires to key staff members to identify information and information flows etc.
- A mixture of the above.

The DPO is responsible for completing the information audit. The information audit will include the following:

- The academy's data needs.
- The information needed to meet those needs.
- The format in which data is stored.
- How long data needs to be kept for.
- Vital records status and any protective marking.
- Who is responsible for maintaining the original document.

The DPO will consult with staff members involved in the information audit process to ensure that the information is accurate.

Once it has been confirmed that the information is accurate, the DPO will record all details on the Trust's ROPA Register.

The information displayed on the Information Asset Register will be shared with the Principal/Headteacher as the information owner to gain their approval.

11. DISPOSAL OF DATA

Where disposal of information is outlined as standard disposal, this will be recycled appropriate to the form of the information, e.g. paper recycling, electronic recycling.

Where disposal of information is outlined as secure disposal, this will be shredded or pulped and electronic information will be scrubbed clean and, where possible, cut. The SDL will keep a record of all files that have been destroyed

Where the disposal action is indicated as reviewed before it is disposed, the SDL will review the information against its administrative value – if the information should be kept for administrative value the SDL will keep a record of this.

If, after the review, it is determined that the data should be disposed of, it will be destroyed in accordance with the disposal action outlined in this policy.

Where information has been kept for administrative purposes, the SDL will review the information

again after three years and conduct the same process. If it needs to be destroyed, it will be destroyed in accordance with the disposal action outlined in this policy. If any information is kept, the information will be reviewed every three subsequent years.

Where information must be kept permanently, this information is exempt from the normal review procedures.

12. RETENTION SCHEDULE

The Trust will keep some types of information for longer than others. By law, personal data must only be retained for as long as there is a genuine need for it and cannot be stored indefinitely. The tables included in the appendices include the categories of personal data held, the retention period and method of disposal.

EQUALITY IMPACT ASSESSMENT

An Equality Impact Assessment (EIA) is an evidence-based approach designed to help organisations ensure that their policies, practices, events and decision-making processes are fair and do not present barriers to participation or disadvantage any protected groups from participation.

The Equality Act 2010 requires public bodies, in carrying out their functions, to have due regard to the need to:

- Eliminate discrimination and other conduct that is prohibited by the Act
- Advance equality of opportunity between people who share a protected characteristic and people who do not share it
- Foster good relations across all characteristics - between people who share a protected characteristic and people who do not share it.

In the development of this policy due regard has been given to achieving these objectives, further to which we will champion equality in all its forms, in keeping with our values.
